

Small Quantity Generator Certification

I hereby certify that I am a generator of hazardous waste within the State of New York and that because of the small volume of hazardous waste generated and/or stored, I qualify for conditionally exempt small quantity generator status.

I understand that in order to qualify for conditionally exempt small quantity generator status, I must meet the following conditions in a calendar month:

- 1.) Generate less than 1 kg (2.2 pounds) of acute hazardous waste (as defined by 6 NYCRR Part 371), and never store more than this amount on site at any time; and
- 2.) Generate less than 100 kg (220 pounds) of material from the cleanup of a spillage of acute hazardous waste; and
- 3.) Generate less than 100 kg (220 pounds) of all other hazardous waste (as defined by 6 NYCRR Part 371), and never store more than a total of 1000 kg (2,200 pounds) at any one time.

I further understand that if, in the future, I exceed the quantity limitations described above, I will become subject to additional regulation as a hazardous waste generator and will no longer be eligible to participate in this type of collection program.

I certify that I have the authority to make these statements on behalf of my farm or business.
