## Directions For Product Use

### Lawn Establishment and Maintenance

Establishment: Apply 1 - 2 inches of compost to the new lawn area. Incorporate into the soil to a depth of 5 – 8 inches. Rake soil surface smooth prior to applying seed. Apply seed as required. Lightly water the newly seeded area.

Maintenance: Apply fine layer of  $\frac{1}{4}$  to  $\frac{1}{2}$  inch of compost and rake evenly across the lawn. Reseed if needed and lightly water.

### Flower Bed and Garden Soil Maintenance

Apply about 2 inches of compost to the garden. Blend with existing soil to a depth of 6 - 8 inches

### Landscaping Development and Maintenance

Apply 1 – 3 inches of compost around planting beds, trees and shrubs.

### Tree and Shrub Planting

Excavate a hole slightly shallower and 2 to 3 times the width of the root ball or container. Uniformly blend compost with the excavated soil at 1 part compost to 2-3 parts soil. Back-fill and firm the soil/compost blend around loose roots and root ball within the planting hole. Water trees and shrubs thoroughly after planting.

*Note: The USCC will not assess whether or not, or to what extent, these directions are appropriate. It is the Compost Manufacturer's responsibility alone to ensure that they are.*

For additional information pertaining to compost use, the specific compost parameters tested for within the Seal of Testing Assurance Program, or the Program in general, log onto the US Composting Council's website at <https://www.compostingcouncil.org>.

Participants in the United States Composting Council's Seal of Testing Assurance Program have shown the commitment to test their compost products on a prescribed basis, and provide this date, along with compost and use instructions, as a means to better serve the needs of their compost customers.

This compost product has been sampled and tested as required by the Seal of Testing Assurance Program on the United States Composting Council (USCC) using certain methods from the **Test Methods for the Examination of Compost and Composting** manual. Test results are available upon request by contacting the compost producer (address at top of this Compost Technical Data Sheet). The USCC makes no warranties regarding this product or its content, quality, or suitability for any particular use.
